## Creating Beautiful AND Beneficial Spaces

Canada is home to a myriad of wildlife that are both enjoyable to watch and critical to our well-being. But these wild neighbours need our help. Join the Canadian Wildlife Federation as we explore a variety of ways to support pollinators, birds and other wild neighbours, right outside your door! You will see that gardening with wildlife in mind is versatile, with options that can suit any lifestyle, budget or garden style.

**Sarah Coulber**, Gardening for Wildlife Specialist with the Canadian Wildlife Federation

Sarah's love of nature led to several environmental jobs and naturalist volunteer roles before joining the Canadian Wildlife Federation over 20 years ago. Sarah runs the Gardening for Wildlife program where she helps Canadians discover, appreciate and support the incredible nature that surrounds us.

The monthly **Earth Salons** are an initiative of the *Shambhala Touching the Earth Collective*, and are curated and facilitated by Deborah Luscomb, with occasional guest 'experts'.
